

# Aotearoa Experience

Additional 1 week add-on

Add an additional week-long Aotearoa  
experience to your Green School visit!

NEW ZEALAND

A magical cave scene with a river, glowing blue lights, and a starry ceiling. The scene is dimly lit, with the primary light source being numerous small, bright blue glowing spots scattered throughout the cave, particularly concentrated in the upper half. These spots resemble bioluminescent organisms or fairy lights. The cave walls are dark and textured, with some stalactites visible on the right. A river flows through the center of the cave, its surface reflecting the blue light. In the background, a rocky outcrop is partially illuminated by a soft, yellowish light, possibly from a fire or a natural opening in the cave.
